

Ecology Data Fun Days

Presented by Dr Gurion Ang (a.k.a. Dr G), School of Biological Sciences

Calamvale Community College

30 May 2019

4.15pm - 7pm

11 Hamish St, Calamvale

Redbank Plains State High School

25 June 2019

4.15pm - 7pm

136 Willow Road, Redbank Plains

Balmoral State High School

27 June 2019

4.15pm - 7pm

259 Thynne Road, Balmoral

3.30pm - 4.15pm

Registration and Refreshments

4.15pm - 6pm

Data Analysis of Unit 3 Mandatory Practicals

We will review the mandatory practicals in Unit 3 of the new senior biology syllabus, and propose appropriate statistical tests to analyse and interpret data collected from these practicals. We will use authentic data sets from fieldwork to show how to analyse the data to test for critical ecological concepts. We will also cover challenges you may face in experimental design during your prospective field trip and the workarounds.

6pm onwards

Refreshments

Open Consultation and Networking (optional)

You are invited to bring along any questions and confusing and/or problematic datasets. We will work through them to determine the most appropriate statistical analysis to apply based on the research questions you are investigate.

Dr G's Biology PD on the horizon

There will be no data analysis and interpretation PD offering beyond Term 2 2019. Term 3 2019 PD will focus on Unit 3 content deficits only. Term 4 2019 PD will be offered only at the STAQ-UQ Senior Science Day and STAQ-UQ Senior Biology Day and focus only on Unit 3 and 4 content deficits and practicals.
